

UNBEATABLE POWER-TO-WEIGHT-RATIO

- High operator friendliness thanks to optional radio remote control
- Maximum utilisation of the working range due to HPSC
- More lifting power due to A-HPLS
- High value retention due to KTL-coating combined with powder coating or two component finish coat paint
- Higher payloads due to intelligent lightweight design

PERFECT TOOL WITH SOPHISTICATED KINEMATICS

10 Highlights

Single Link

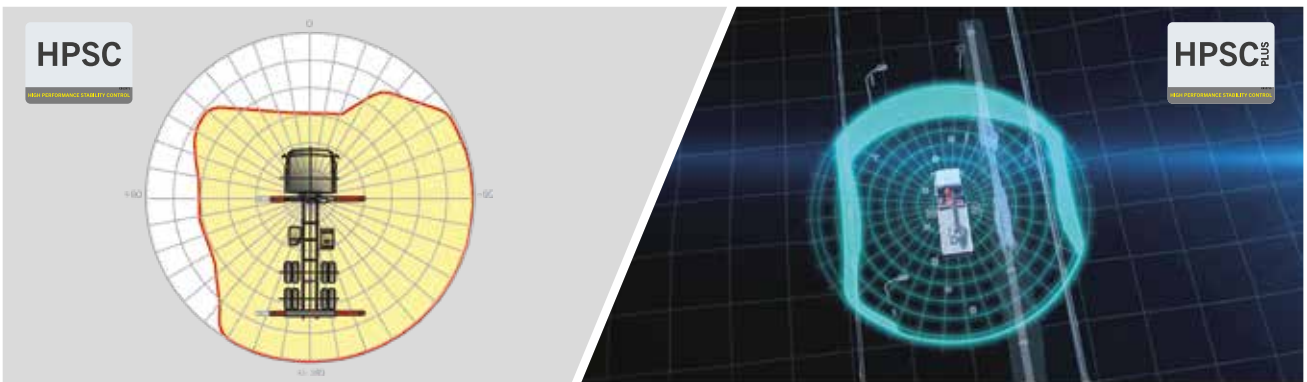

More power on the hook

The linkage system improves the crane's motion geometry significantly.

High Speed Extension

For efficient assignments

The High Speed Extension speeds up the extension boom system. Crane works faster and more efficiently.

HPSC*

Maximum utilisation of the working range

The variable stabiliser positioning of the High Performance Stability Control System makes it possible to utilise the lifting capacity to the maximum. It enables working within tight spaces.

HPSC-Plus LOAD*

Longer reach due to load detection

HPSC-Plus LOAD is an additional module, extending the stability system HPSC. Thanks to inclination monitoring, lifting capacity can be maximized using the truck's load.
